Professional Summary

Recent Graduate with a foundational knowledge on all the tools and technologies required to become a ml engineer and ready to wrap out his skills in the real world scenario's.

Work Experience

Intern(AI&ML)

Developed ML model for reducing the task of data entry and improving the accuracy.

March 2025 - April 2025

Education

Bachelor Degree in Computer Science Engineering

JNTU_h

GPA: 9.0/10

2025

Skills

- Python
- Sql
- Pytorch
- Machine Learning
- Tensorflow
- Keras
- Scikit-learn

Projects

Indian Climate Prediction system

predicts the indian climate change upto next 10 days with detailed indian map dashboard
